R.G.Baruah Collge at a Glance

R.G.Baruah College is a Provincialised institution affiliated to Gauhati University, Assam, established in 1978. The college is located on the southern part of Guwahati city at Fatasil Ambari, which connects Bharalumukh with the National Highway 37 bypass at Garchuk, and lies at a distance of about 25 kms from the Lokapriya Gopinath Bordoloi International Airport, Borjhar and 4 kms from the Guwahati Railway Station. The College is well equipped with modern infrastructural facilities. At present it has twelve departments under both the Arts and Commerce streams and also offers courses in Computer Application and Information Technology. It imparts education to more than two thousand students, and more than eight hundred students are enrolled annually.

ABOUT THE SEMINAR

The Indian Higher Education system is one of the largest systems in the world. In higher education, student evaluation is a matter of serious discussion. In the recommendations of almost all Commissions and Committees of Higher Education, there is a Special emphasis on evaluation pattern of students. The latest report of the National Knowledge Commission also recognizes the need to revise evaluation methods and adopt those methods which test critical reasoning by encouraging essential analytical writing and communication skills, problem oriented and theoretical approaches instead of testing capacity of rote memorization. As such, many national and international level seminars and conferences have already been organized by various academic bodies on Examination System.

Evaluation is a complex term and its real meaning and implications are generally inadequately understood. It has, therefore, remained a subject of debate among academia and policy makers. Almost every university has adopted some form of evaluation mechanism. There is a growing appreciation as well as need of creating efficient and effective evaluation system in the field of higher education in the age of globalisation. Fair evaluation patterns have always remained a big challenge for evaluators.

The problem related to evaluation of students as well as the possible solutions are well known. Much have been talked about the need for academic restructuring, curricula development and examination reforms. The emphasis is on provision of a Cafeteria type choice of courses, and on the introduction of the Credit based system with evaluation on the basis of both continuous internal assessment and end of term examinations, in form of letter grade with cumulative grade point average.

The main objective of the seminar is to find out the problems related to examination system in undergraduate level and also try to find out some solutions for better examination system.
